SUBJECT INDEX TO VOLUME XL

ABDOMEN, Pain and muscle tension caused by inflammation of diaphragmatic costal and lower parietal pleura simulating abdominal viscera, 62; The graded abdominal operation, 291; Left-sided abdominal abscess as a complication of appendicitis, 495
Abortion, Treatment of, 87
Abscess, Douglas, following the closed treatment of peritonitis, 258; cavity, Treatment of brain abscess by unroofing and temporary herniation of, with avoidance of usual drainage methods, 721
Acidosis, Insulin-glucose treatment of surgical shock and non-diabetic, 548
Actinomycosis of the ovary and tube, 502
Allen, Dudley P., 718
American College of Surgeons—
Address of the President, 447
Genesis and Progress of, 149
The Years Between, 143
Clinical Congress of, 733, 891
State Sectional Meetings, 900
Congress of American Physicians in Washington, 900
Study of End-Results in Hospitals, 730
Anæmia, of the puerperium, with report of eight cases, 223
Anæsthetics, Effect of general, on the organism as a whole, 493
Ankle joint, Posterior dislocation of the foot without fracture, 256; Subastragaloid arthrodesis, 836
Appendicitis, Left sided abdominal abscess as a complication of, 495
Arthrodesis, Subastragaloid, 836
Arthroplasty, Joint transplantation, and, 782
Astragalus, Posterior dislocation of the foot without fracture, 256; Fractures of the foot, 522; Subastragaloid arthrodesis, 836

BASSINI operation, modified to lessen recurrence in selected cases of lateral displacement of the cord in oblique inguinal hernia operations, 119
Bile, Some observations on the entrance of, into the duodenum, 545
Bladder, Vesicovaginal fistula, utilization of thorough dissection of the anterior vaginal wall for closure, 274; Diverticulum of the, causing dystocia at labor, 524; Embryonic rests of the urinary, 528; Residual urine in women, 689; Hæmaturia, 683
Blindness following the use of the actual cautery, tr. 585
Blood replacement, Experiences with, during or after major intracranial operations, 310
Blood vessel surgery, The place of elective vein ligation in, 45
Blood vessels, Periarterial sympathectomy, indications for its use in circulatory diseases of the extremities, 828
Bones, The treatment of wounds in compound fractures of the long, 120; Cartilaginous tumors of, 510; Hæmatogenous osteomyelitis, report of a group of seventy-one cases, 658; Elbow fractures and dislocations, treatment and analysis of one hundred eighty-one cases at Bellevue Hospital, New York, 665; Newer methods of treatment in non-union (pseudarthrosis) of fractures, 862; Phalangization of the first metacarpal, 859
Bowel, Massive tumors due to diverticulitis of the large, 825
Brain, Experiences with blood replacement during or after major intracranial operations, 310; A method for the localization of, tumors, the pineal shift, 481; abscess, The treatment of, by unroofing and temporary herniation of abscess cavity with the avoidance of usual drainage methods, 721
Breast, Tuberculosis of the mammary gland, occurrence, case report, 227; The experimental production of metastasizing carcinoma in, of the dog and primary epithelioma in man by repeated inoculation of a micrococcus isolated from human breast cancer, 343; Use of the X-ray in the treatment of cancer of the, ed. 435
Buller, Frank, 439
Bursitis, Metamorphosed fat deposits in subdeltoid, 92

CÆSAREAN section, The low or cervical (laparotrachelotomy), 230, 297; Closing endometrium in, 706
Calcium, 822
Cancer, The application of facts and opinions resulting from laboratory experiments to the practical work of, control, 334; Infection, 336; Some clinical evidence in favor of the extrinsic origin of, 353; of the breast, The use of the X-ray in the treatment of, ed. 435
Carcinoma, Final results in radium treatment of, of the cervix uteri at Radium Home, Stockholm, Sweden, 161; The experimental production of metastasizing, in the breast of the dog and primary epithelioma in man by repeated inoculation of a micrococcus isolated from human breast cancer, 343; Primary, of the kidney, 499; of the thyroid, ed. 579
Cardiorrhaphy, 623
Cautery, A simple silver point, 567; Blindness following the use of the actual, tr. 585
Cervix uteri, Supracervical (high subtotal) hysterectomy, with conservation of the menstrual function, 874
Chicago Gynecological Society, 296, 585, 722
Cholecystectomy for hyperacidity, 221
Cholecystitis, Visible changes in the liver in chronic, 94
Cholecystography, The clinical use of sodium tetraiodophenolphthalein in, 17; 646; The oral administration of sodium tetraiodophenolphthalein for, 847
Clavicle, A modification of the clavicular cross, 566
Clavicular cross, A modification of the, 566
Colon, Polyposis of the, a survey of the subject, 460
Congress of American Physicians and Surgeons, ed. 714
Cranium, Experiences with blood replacement during or after major intracranial operations, 310
Cryptorchidism, Undescended testicle, 535
Cyst, Pseudomucinous of the ovary, tr. 585; of the spleen, 778; Dermoid, of the floor of the mouth, 183; Gas cysts of intestine, 387

DELIVERY, Iodine preparation of the vulva for, 281
Deltoideus, Metamorphosed fat deposits in subdeltoid bursitis, 92
Dermoid cysts of the floor of the mouth, 183
Diabetes, Surgical complication of, under insulin treatment, 630
Diagnosis, A review of 500 selected laparotomies with special reference to errors in, 264, 721; Pneumoperitoneum as an aid in the, of obscure pelvic lesions and early pregnancy, 703

Diaphragm, Eventration of the, with report of 7 cases, 415
Diphtheritic vaginitis, report of two cases, 556, tr. 585
Dish face, A new procedure for the relief of facies scaphoidea, 109
Douglas abscess following the closed treatment of peritonitis, 258
Drain, New, and its application to pelvic drainage, 278
Duodenum, Perforation of silent ulcer of, from external trauma, 84; Acute dilatation of the stomach and intestinal tube with a consideration of chronic duodenal ileus, 206; Some observations on the entrance of bile into the, 545
Dura mater, Extradural liposarcoma of the spinal canal, a clinical and pathological report, 476
Dystocia, at labor, Diverticulum of the bladder causing, report of a case, 524; Report of a case due to rigor mortis of fetus in utero, tr. 725

ELBOW, Fractures and dislocations, treatment of analysis of one hundred eighty-one cases at Bellevue Hospital, New York, 665; Joint transplantations and arthroplasty, 782
Electric cautery, Chronic endocervicitis, its clinical importance and results from treatment with the, 568; The treatment of chronic gonorrhœa in women with the, 572, tr. 585
Electricity, The modern theories of, in their bearing on roentgenology, 271, tr. 300
Embryonic rests of the urinary bladder, 528
Emphysema, Subcutaneous, following labor, report of a case, 105, 434
Endocervicitis, Chronic, its clinical importance and results from treatment with electric cautery, 568, tr. 585; Chronic gonorrhœal, 572, tr. 585
Endometrium, Closing, in cæsarean section, 706
Endothelioma, Primary, of the peritoneum, 196
End-results, The study of, in hospitals, tr. 730
Epithelioma, The experimental production of metastasizing carcinoma in the breast of the dog and primary, in man by repeated inoculation of a micrococcus isolated from human breast cancer, 343
Erector spinæ, The substitution of the, for paralyzed gluteal muscles, an operation for stabilizing the hip, 593
Ether, Colonic instillation, Directions for administering morphine magnesium sulphate injections and, 868
Eventration of the diaphragm, with report of 7 cases, 415

FACIES scaphoidea, dish face, A new procedure for the relief of, 109
Fat deposits, Metamorphosed, in subdeltoid bursitis, 92
Femur, Fractures of the, treatment and results attained by traction and suspension, a report of one hundred ten cases, 112; Treatment of wounds in compound fractures of long bones, 120; A new traction frame and caliper for fractured, 125; Demonstration of apparatus for the reduction and treatment of fracture of the, 279; An unusual type of paralytic abduction deformity of the hip, an operation for its cure, 421
Fibroid tumors, of the vulva, with report of an unusual case, 244; of the ovary, Specimen of, tr. 296
Fibromata of the mesentery with the report of a case, 402; of the ovary, tr. 585
Fibula, The treatment of wounds in compound fractures of the long bones, 120
Flexo-extensometer, 710
Foot, Posterior dislocation of the, without fracture, 256
Fractures, of the femur, treatment and results obtained by traction and suspension, a report of one hundred ten cases, 112; The treatment of wounds in compound, of long bones, 120; A new traction frame and caliper for fractured femurs, 125; of the femur, Demonstration of apparatus for the reduction and treatment of, 279; of the foot, 522; Useful mechanical aids in the treatment of, of the spine, 562; of the clavicle, A modification of the clavicular cross, 566; Elbow, and dislocations, treatment and analysis of one hundred eighty-one cases treated at the Bellevue Hospital, New York City, 665; New methods of treatment in non-union of, 862

GALL bladder, A comparison of sodium tetrabromphenolphthalein with sodium tetraiodophenolphthalein in, radiography, 17; Visible changes in the liver in chronic cholecystitis, 94; Cholecystectomy for hyperacidity, 221; Some observations on the entrance of bile into the duodenum, 545; The clinical use of sodium tetraiodophenolphthalein in cholecystography, 646; Oral administration of sodium tetraiodophenolphthalein for cholecystography, 847
Gas cysts, of the intestine, with report of a case, 387
Gasserian ganglion, 49
Gastrectomy, A method for an end-to-end gastrojejunostomy after a partial, 559; Remarks upon the technique of, 755
Gastric surgery, Basic principles and supreme difficulties in, 1
Gastric tetany, a fatal case, 654
Gastrojejunostomy, A method for an end-to-end, after a partial gastrectomy, 559
Genito-urinary tract, The cytological examination of the urine as an aid to the diagnosis of tumors of the, 531; Hæmaturia, 683
Gerster, Arpad Geza Charles, 582
Goiter, The treatment of adolescent, ed. 716; Hyperthyroidism and peptic ulcer, 818
Gonorrhœa, Chronic gonorrhœal endocervicitis, 572, tr. 585; The treatment of chronic, in women with the electric cautery, 568, tr. 585
Graded abdominal operation, ed. 291
Granuloma inguinale, 107
Gynecology, Gynecological conditions treated with radium alone or combined with surgery, report of one hundred fifty-six cases, 598; The sedimentation test in obstetrics and, 691

HÆMATURIA, 683
Hand, Phalangization of first metacarpal, 859
Heart, A successful cardiorrhaphy, 623
Hernia, Lateral displacement of the cord in oblique inguinal, a modified Bassini operation to lessen recurrence in selected cases, 119; A modified Mayo umbilical herniotomy, 707; Interdigitation in the repair of large ventral, with observations on lipectomy, 852
Herniotomy, A modified Mayo umbilical, 707
Hip, An unusual type of paralytic abduction deformity of, an operation for its cure, 421; The substitution of the erector spinæ for paralyzed gluteal muscles, an operation for stabilizing the, 593
Hospitals, The study of end-results in, tr. 730
Hunter, John I., 284
Hyperacidity, Cholecystectomy for, 221
Hysterectomy, Supracervical (high subtotal), with conservation of the menstrual function, 874
Hyperthyroidism and peptic ulcer, 818

ILEUM, A peritoneal sac containing the small intestine, comments on kinks of the, 400
Ileus, Acute dilatation of the stomach and intestinal tube with a consideration of chronic duodenal, 206

Inserts—
Basic principles and supreme difficulties in gastric surgery.—H. B. Devine, 1
The red stomach.—Jan Schoemaker, 305
Tuberculosis of the tongue.—J. M. T. Finney and J. M. T. Finney, Jr., 750
Ureterocele; its clinical significance and process of formation; report of four cases.—Diomede Petillo, 814
Instruments—Demonstration of apparatus for the reduction and treatment of fractures of the femur, 279; Management of occipitoposterior position with special reference to application of Kjelland forceps, 697; A simple method of connecting a glass syringe and plunger, 708; Submucosa dissector, 709; Flexo-extensometer, 710
Insulin, glucose treatment of surgical shock and non-diabetic acidosis, 548; Surgical complications of diabetes under, treatment, 630
Interdigitation in the repair of large ventral hernias with observations on lipectomy, 852
Intestines, Extensive resection of the small intestine in an infant, 55; Acute dilatation of the stomach and intestinal tube with a consideration of chronic duodenal ileus, 206; Gas cysts of the, with report of three cases, 387; A peritoneal sac containing the small, comments on kink of the ileum, 400; A method of inducing the small, partially to function during the course of acute diffuse peritonitis, 424; Massive tumors due to diverticulitis of the large bowel, 825
Iodine preparation of the vulva for delivery, 281

JEJUNOSTOMY, An anatomical exposure for, 426
Jejunum, The frequency of gastrojejunal ulcers, 70; Anatomical exposure for jejunostomy, 426; A method for an end-to-end gastrojejunostomy after partial gastrectomy, 559

KIDNEY, Acute localized infection of, 247; Renal papillomata and ureteral implants, their surgical treatment in the female, with report of a case, 323; Unilateral fused, 360; The treatment of pyelitis of pregnancy with retention (indwelling) ureteral catheter, 428; A plan for the early diagnosis and management of primary papilloma of the ureter, and pelvis, a case report of each, 485; Primary carcinoma of the, 499; Movable, 605; Resection of, for calculous pyonephrosis, 810
Kjelland forceps, Management of occipitoposterior position, with special reference to the application of the, 697
Knee joint, Joint transplantations and arthroplasty, 782

LABOR, Subcutaneous emphysema following, report of a case, 105, 434; Diverticulum of the bladder, causing dystocia at, report of a case, 524; Management of occipitoposterior position, with special reference to the application of the Kjelland forceps, 697; Report of a case of dystocia due to rigor mortis of the fetus in utero, tr. 725; Amelioration of labor pains by morphine magnesium sulphate injections and colonic ether instillations; Directions for administration by method evolved at Lying-In Hospital, New York, 868
Laparotomies, A review of five hundred selected, with reference to errors in diagnosis, 264, 721
Laparotrachelotomy, The low or cervical cæsarean section, 230, tr. 297
Leucocytosis, Postoperative, a study of thirty cases from the wards of the Woman's hospital in the state of New York, 23
Ligature needle, A new form of, 565
Lipectomy, Interdigitation in the repair of large ventral hernias with observations on, 853
Lipomata of the sigmoid, 407
Liposarcoma, Extradural, of the spinal canal, a clinical and pathological study, 476
Lithiasis, Pancreatic, 841
Liver, Visible changes in, in chronic cholecystitis, 94; Hepatic function, ed. 133; Results obtained with the phenoltetrachlorphthalein test of, function, 411
Lungs, Advanced pulmonary tuberculosis, a border line disease, ed. 577
Lymphaticostomy, Report of a case of puerperal peritonitis treated by, tr. 296

MALFORMATIONS, Congenital absence of the uterus, and associated developmental defects, report of a case, 31
Malignant disease, Are radiations proven to be of value to the patient suffering from, ed. 134
Malignant tumors, The treatment of, of the pharynx and nasopharynx, 177
Mammary gland, Tuberculosis of the, occurrence, report, 227
Master Surgeons—
Allen, Dudley Peter, 718; Buller, Frank, 439; Gerster, Arpad Geza Charles, 582; Munro, John Cummings, 136; Peck, Washington F., 293; Warren, John, 881
Mercurochrome, The treatment of infections—general, local, and urinary, with the intravenous injection of, 97
Mesentery, Fibromata of the, with report of a case, 402
Metacarpal, Phalangization of the first, 859
Metatarsal, Fractures of the foot, 522
Morphine, Directions for administering magnesium sulphate injections and colonic ether instillations to ameliorate labor pains, 868
Mouth, The surgical restoration of the lining of the, 165; Dermoid cysts of the floor of the, 183
Munro, John Cummings, 136
Muscle tension, Pain and, caused by inflammation of the diaphragmatic costal and lower parietal pleura simulating that from abdominal viscera, 62; The substitution of the erector spinæ for paralyzed gluteal, an operation for stabilizing the hip, 593
Myomata, Uterine, and pregnancy with special reference to tumor necrosis, 367

NASOPHARYNX, The treatment of malignant tumors of the pharynx and, 177
Needle, A new form of ligature, 565
Nerves, Tumor of the left gasserian ganglion, 49
Nose, Plastic surgery of the, 469

OBSTETRICS, Superfetation, a probable case, 642; The sedimentation test in, and gynecology, 691; Management of occipitoposterior position, with special reference to the application of the Kjelland forceps, 697
Old Masterpieces in Surgery—
Banister's Anatomy, 140; William Bullein's Bulwarke of Defense and Dialogue, 302; Certaine Workes of Chirurgie Newlie Compiled and Published by Thomas Gale, Maister in surgerie, London, Printed by Thomas East, 727; The French Surgery of Guillemeau, 589; Harvey's Circulation of the Blood, 444; Lithotomy and the Lithotomists, 886
Omentum, Torsion of the great, 635
Os calcis, Fractures of the foot, 522
Osteomyelitis, Hæmatogenous, report of a group of seventy-one cases, 658

Ovary, Specimen of fibroid tumor of, tr. 296; Actinomycosis of, and tube, 502; Pseudomucinous cyst of, tr. 585; Fibroma of, tr. 585

PAIN and muscle tension caused by inflammation of the diaphragmatic costal and lower parietal pleura simulating that from abdominal viscera, 62
Pancreatic lithiasis, 841
Papillomata and ureteral implants, their surgical treatment in the female, with report of a case, 323; Primary, A plan for the early diagnosis and management of, of the ureter and kidney pelvis, a case report of each, 485
Paralysis, An unusual type of paralytic abduction deformity of the hip, an operation for its cure, 421
Peck, Washington F., 293
Pelvic suppuration, Treatment of, 174
Pelvis, Treatment of pelvic suppuration, 174; Pelvic varicocele, diagnosis and treatment and a new operation for its radical cure, 237; A new drain and its application to the pelvic drainage, 278; An unusual type of paralytic abduction deformity of the hip, an operation for its cure, 421; Pneumoperitoneum as an aid in the diagnosis of obscure pelvic lesions and early pregnancy, 703; Acute infections, with special reference to pelvic infections, 857
Peptic ulcer, Hyperthyroidism, 818
Peritoneum, Douglas abscess following the closed treatment of peritonitis, 258; A peritoneal sac containing the small intestine, comments on kink of the ileum, 400; A method of inducing the small intestine partially to function during the course of acute diffuse peritonitis, 424; Drainage of the thoracic duct in peritonitis, 626; The treatment of general peritonitis, 760
Peritonitis, Douglas abscess following the closed treatment of peritonitis, 258; Report of a case of puerperal, treated by lymphaticostomy, tr. 296; A method of inducing the small intestine partially to function during the course of acute diffuse, 424; The treatment of general, 760
Phalanges, Fracture of the foot, 522
Phalangization of the first metacarpal, 859
Pharynx and nasopharynx, The treatment of malignant tumors of the, 177
Phenoltetrachlorphthalein test of liver function, Results obtained with, 411
Pineal shift, A method for the localization of brain tumors, 481
Placenta prævia, Report of two cases of, with low insertion of the cord, tr. 726
Plastic surgery, The surgical restoration of the lining of the mouth, 165; The deep scar, ed. 436; of the nose, 469
Pleura, Pain and muscle tension caused by inflammation of the diaphragmatic costal and lower parietal, simulating that from abdominal viscera, 62
Pneumoperitoneum as an aid in the diagnosis of obscure pelvic lesions and early pregnancy, 703
Polyposis of the colon, survey of the subject, 460
Portraits—
Allen, Dudley Peter, 718; Buller, Frank, 439; Gerster, Arpad Geza Charles, 582; Hunter, John I, 284; Munro, John Cummings, 136; Peck, Washington F., 293; Warren, John, 881; Watkins, Thomas, J. 712
Pregnancy, Uterine myomata and, with special reference to tumor necrosis, 367; The treatment of pyelitis of, with retention (indwelling) ureteral catheter, 428; Pneumoperitoneum as an aid in diagnosis of obscure pelvic lesions and early, 703
Prolapse of the female urethra, 687, tr. 723
Prostatectomy, Seminal vesiculitis as a complication of prostatism, 214
Prostatism, and prostatectomy, Seminal vesiculitis as a complication of, 214
Puerperium, An anæmia of, with report of eight cases, 223; Report of a case of puerperal peritonitis treated by lymphaticostomy, tr. 296
Purpura, The relation of the spleen to certain chronic, 771
Pyelitis, The treatment of, of pregnancy with retention (indwelling) ureteral catheter, 428
Pyonephrosis, Resection of kidney for calculous, 810

RADIOGRAPHY, A comparison of sodium tetrabromphenolphthalein with sodium tetraiodophenolphthalein in gall bladder, 17
Radium, Are radiations proven to be of value to the patient suffering from malignant disease, ed. 134; Final results in, treatment of carcinoma of the cervix uteri at Radium Home, Stockholm, Sweden, 161; Gynecological conditions, treatment with, alone or combined with surgery, report of one hundred fifty-six cases, 598

Syphilis, The effect of surgical trauma in patient with, with special reference to healing of the postoperative wound, 77
Syringe, A simple method of connecting a glass and plunger, 708

TENDONS, Multiple xanthoma of the, 199
Test, Phenoltetrachlorphthalein, of liver function, 411
Testicle, Undescended, 535
Tetraiodophenolphthalein, Sodium, for cholecystography, of, 17, 646, 847
Thoracic duct, Drainage of the, in peritonitis, 626
Thyroid, Carcinoma of the, ed. 579; The treatment of adolescent goiter, ed. 716; Hyperthyroidism and peptic ulcer, an analogy, 818
Tibia, The treatment of wounds in compound fractures of long bones, 120; Posterior dislocation of the foot without fracture, 256
Tongue, Tuberculosis of the, 743
Torsion of the great omentum, 635
Traction frame, A new, and caliper for fractured femurs, 125
Tube, Actinomycosis of the ovary and, 502
Tuberculosis of the mammary gland, occurrence, case report, 227; Advanced pulmonary, a border line disease, ed. 577; of the tongue, 743
Tumors, Fibroid, with report of an unusual case, 244; cartilaginous, of bone, 510; Massive, due to diverticulitis of the large bowel, 825
Typhoid carriers, The surgical treatment of, in the Gowanda State Hospital, 404

ULCERS, The frequency of gastrojejunal, 70; Perforation of silent, of duodenum from external trauma, 84; The operative treatment of, of the body of the stomach, 761
Ulna, Treatment of wounds in compound fractures of long bones, 120
Umbilical cord, Report of two cases of placenta prævia, with low insertion of the cord, tr. 726
Ureter, Renal papillomata and ureteral implants, their surgical treatment in the female, with report of a case, 323; A plan for the early diagnosis and management of primary papilloma of the ureter and kidney pelvis, a case report of each, 485; A new method for the removal of stone in the, a preliminary report, 575; Ureterocele, its clinical significance and process of formation, report of four cases, 811
Ureterocele, its clinical significance and process of formation, report of four cases, 811
Urethra, Prolapse of the female, 687
Urine, The cytological examination of the, as an aid to the diagnosis of tumors of the genito-urinary tract, 531; Residual, in women, 689, tr. 724
Uterus, Congenital absence of the, and associated developmental defects, report of a case, 31; Final results in radium treatment of carcinoma of the cervix uteri at Radium Home, Stockholm, Sweden, 161; The low or cervical cæsarean section, laparotrachelotomy, 230, tr. 297; Disasters following operations for retroposition of, ed. 289; Uterine myomata and pregnancy with special reference to tumor necrosis, 367; Chronic endocervicitis, its clinical importance and results from treatment with electric cautery, 568, tr. 585; Chronic gonorrhœal endocervicitis, 572, tr. 585; Closing endometrium in cæsarean section, 706; Supracervical, high subtotal, hysterectomy, with conservation of the menstrual function, 874

VAGINA, Vesicovaginal fistula, utilization of thorough dissection of the anterior vaginal wall for closure, 274; Vaginal cysts, 381; Diphtheritic vaginitis, report of two cases, 556, tr. 585
Varicocele, Pelvic, diagnosis and treatment and a new operation for its radical cure, 237
Vein ligation, The place of elective, in blood vessel surgery, 45
Vertebra, Useful mechanical aids in the treatment of fractures of the spine, 562
Vulva, Fibroid tumors of the, with report of an unusual case, 244; Iodine preparation of the, for delivery, 281
